

BABY TORTURED FOR 6 MONTHS

By Terrible Itching Eczema—Face and Head a Solid Sore—Spread to His Hand and Legs—Would Scratch Until He Bled—Tiny Sufferer Immediately Relieved and

ENTIRELY CURED IN 2 MONTHS BY CUTICURA

"When my son Walter was three weeks old, eczema appeared on his face. We did not know what it was so went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor. He said he could cure him and we doctored there four months, the baby never getting any better. His hand and legs then had big sores on them and as for his sleeping, we could not think of it, the poor little fellow suffered so terribly. First I tied his hands to the crib to keep him from scratching, but when it got so bad I tied him in a shawl or he would scratch himself all bloody. When he was seven months old we tried a set of the Cuticura Remedies. The first application of Cuticura let him sleep and rest well, in one week the sores were gone but it stayed red and sometimes it would itch so we used Cuticura for two months, then he had a clear and white face. Now he is two years and seven months old and has never had eczema again. I hope this letter will help some who are suffering from skin disease. Every mother who has a baby suffering with skin disease should just try Cuticura; there is nothing better. Mrs. Louis Beck, R. F. D. 3, San Antonio, Tex., Apr. 15, '07."

A single set of Cuticura Remedies is often sufficient to cure torturing, disfiguring, itching, burning, and scaly rashes, eczemas, rashes, and irritations, from infancy to age, when all other remedies fail.

Complete External and Internal Treatment for Every Humour consists of Cuticura Soap (50c.) to cleanse the skin, Cuticura Ointment (50c.) to heal the skin, and Cuticura Resolvent (50c.), for the removal of blood poisons. Sold throughout the world. Foster Drug & Chem. Corp., Sole Props., Boston, Mass.

POWERS AND HOWARD FREE

(Continued from First Page.)

Statehouse square being at the station to see him. The tip that the pardon was forthcoming was published in the Courier-Journal this morning and the Frankfort News was out with an extra, giving the details of the pardons, before the train bearing Howard left Frankfort, and the paper helped to spread the news of the pardon. Howard was accompanied to Louisville by a company of friends.

CRIME ALL CHARGED TO YOUTSEY.

Henry Youtsey is made the scapegoat and must bear the brunt of the Goebel murder, as Gov. Wilson says he has no doubt that the shot which killed Goebel was fired by Youtsey. This is his reason for issuing the pardons. Youtsey, who is now serving a life sentence in the penitentiary here for the murder of Goebel and who confessed that he was one of those who plotted against the life of the man who afterwards was sworn in as Governor, is held to be the only guilty one and Gov. Willson says that the shooting of Goebel was done without any conspiracy and by Youtsey without the aid or assistance of anybody else.

Henry Youtsey denied this morning that he was alone responsible for the murder of Goebel, and again declared that the killing was the result of a plot, in which Powers and Howard was implicated. Youtsey said, when asked if he had fired the shot which killed Goebel:

"No, I did not. But I would have done it if I had not found somebody who would."

POWERS ORATES.

Caleb Powers, who was pardoned Saturday by Gov. Wilson, returned to Barbourville Sunday. He was greeted by a big crowd of citizens headed with a band. Powers made a speech at the courthouse, during which he said the blood of no man was on his hand. He said he had no apology to make for what he had done at Frankfort and that \$50,000 had been spent in his fight for freedom.

DEMOCRATIC PLATFORM

Short and Pointed—Document Adopted by State Convention.

We the representatives of the Democracy of Kentucky, in convention assembled at Lexington, June 11, 1908, reaffirm our allegiance and devotion to the principles of the Democratic party as represented by Jefferson and advocated by a long line of illustrious leaders, and as set forth in the National Democratic platform in 1904.

We endorse and point with satisfaction to the wise, honest and economical conduct of the state government by the Democratic administration of Governor J. C. W. Beckham and his associates in office.

We disapprove and condemn the weak, vacillating, hypocritical and arbitrary conduct of our state affairs by the present Republican administration.

We instruct the delegates elected by this convention to cast the vote of Kentucky as a unit upon all questions and matters coming before the national Democratic convention to be held at Denver, Col., July 7, 1908, and they are hereby instructed to vote for William Jennings Bryan as the nominee for president by said convention and continue to vote for him until he shall be nominated.

NEW AUTOS

Three Doctors Treat Themselves to Horseless Carriages.

Three new automobiles were received Saturday and their owners were busy Sunday trying them. Drs. J. B. Jackson and F. P. Thomas have single-seat vehicles, while Dr. Manning Brown's is made to carry four passengers. They are of the Hosman make and have light wheels and easy running qualities. Unlike some of the heavy, cumbersome machines, they make but very little noise in running.

Tax Books Done.

The city tax books are now ready to turn over to the city collector, Henry T. Hurt, who will begin business July 1. There was 1,346 white and 1,284 colored bills, against 1,775 white and 1,105 colored last year. The taxes aggregate \$58,586.68 for all purposes, against \$57,422.67 in 1905.

STANLEY AND ALLEN

Boomed for Democratic Nomination for Governor.

Lexington, Ky., June 12.—Two men, long prominent in the political world in Kentucky, were given an opportunity to become better acquainted with the rank and file, and to-day their names are on the lips of everyone. The two men are Congressman A. O. Stanley and Col. John R. Allen, the first from the Pennyryle and the other from the Bluegrass.

Mr. Stanley is one of the heroes of the convention and he won for himself the admiration and friendship of Democrats in all sections of the State. This morning a movement was started to make him Governor. Scores of admiring friends accompanied him to the depot and assured him that the highest honor within the gift of the people of Kentucky would be his for the asking.

The Second district delegation cheered this sentiment, and although the contest is yet three years off delegates declared that they were going to work for Stanley.

As chairman of the convention Mr. Stanley was fair and impartial in his rulings and even those who were opposed to him are praising him for his magnanimity. Col. Allen is receiving the congratulations of many delegates for his able and splendid effort last night. He, too, is being groomed for Governor, and his Lexington friends declare he will win in the race.

SECOND CROP

Of Alfalfa Hay Already Cut On Experimental Farm.

Mr. J. B. Walker, who is raising alfalfa under the governments experimental supervision, brought to this office yesterday samples of the second crop of this season, some of which are 40 inches long. He is figuring on four crops during the growing season. The first was cut May 10th, the second June 12th, and two more crops will be realized before fall.

Mr. Walker is experimenting with six acres and the field is from the seeding of August 15, 1907. His experiments are from one-fifth acre patches, there being thirty in all. His first crop yielded one ton to the acre and the second crop considerably more. He considers August the best time for seeding.

Mr. Walker says there is no doubt that Christian county lands are well adapted to the growth of Alfalfa and that it should come into general cultivation as a first class hay crop.

An eminent professor of the United States Agricultural Department has been studying the *Man*. Think of writing books on *Man*. Listen to this! The American hen produces more in dollars and cents, than all the gold and silver mines in the country combined; and if the value of the hens be added, the aggregate is twice the annual yield of all the gold and silver mines and six times the value of the wool crop.

The most independent man on earth is the farmer, for he makes the earth yield him almost everything needed for life. He knows that as he sows so will he reap. He usually keeps strong and healthy with constant strife with nature—in sunshine and in pure air. At sundown, when work is done, he finds most refreshing sleep in bed, such as only a tired man knows. In the same way that the earth yields food for man, so does it provide remedies for human ills. Thousands of households throughout the farming districts of the United States know the value of Dr. Pierce's Golden Medical Discovery. It is nature's most valuable and health-giving agent—made without the use of alcohol. It contains roots, herbs and barks, and is the concentration of nature's vitality as found in the fields and woods. This remedy has a history which speaks well for it because it was given to the public by Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., nearly forty years ago, and has since been sold by druggists in ever increasing quantities. Some medi-

cines enjoy a large sale for a few years, then disappear from the public attention, but Dr. Pierce's Golden Medical Discovery has proved such a reliable blood remedy and tonic that it often enjoys the confidence of several generations in a family, and its increased sales year by year coming from the recommendations of those who have tried it, prove its lasting merit, so that every bottle bears the stamp of public approval. Moreover, Dr. Pierce guarantees that it contains no alcohol or narcotics.

Hon. John E. Sutt, Registrar of Deeds, Court House, Durham, N. C., writes: "We have used Dr. Pierce's Golden Medical Discovery in our family, and have known of some of our neighbors using it. We have always found it to do all that is claimed for it, and feel confident that it is a splendid remedy."

Mrs. Bettie Mill, of Cotton, N. C., writes: "I procured Dr. Pierce's Golden Medical Discovery and took it for my cough. The medicine acted like a charm; cured my cough all O. K. I feel very grateful to you for your kindness. Use my name if you choose."

Do you know your own system? A complete medical book and physiology of the body, is Dr. Pierce's Common Sense Medical Adviser, which can be had for the price of postage. Send Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for the cloth-bound book, or 21 stamps for the paper-bound volume of 1008 pages.

Looking Up

THIS is what our LIMOL business is doing and has been doing since it came out. Over 25 dispensaries in Kentucky and Tennessee are using LIMOL and the business increases as the weather gets hotter.

This increase in the business is an indication of the fact that the drink is right. LIMOL conforms to the pure food regulations as passed June 1, 1906, and is absolutely pure and harmless, so when you drink LIMOL you run no risk of forming an objectionable habit.

LIMOL serves two purposes—that of food and beverage and it just fills the demand of worried brain workers.

TRY LIMOL

for that tired feeling. It is delicious and refreshing, and remember when you drink it you patronize home industry.
